Admission Process for PGP Batch 2019-21

This document details the process that will be adopted for selecting candidates for admission to the Post Graduate Program in Management (PGP) at the Indian Institute of Management Visakhapatnam (IIMV) for the batch of 2019.

The admission process seeks to identify the most promising candidates for the PGP batch of 2019 for IIMV. IIMV uses multiple parameters, namely academic performance in 10th standard examination, 12th standard examination and Bachelor's degree examination, candidates' scores in CAT, as well as performance in Personal Interview and Written Ability Test to judge the suitability of candidates for the PGP program. Relevant work experience, if any, is also given weight in the selection. Evaluation by multiple criteria is also consistent with empirical research on recruitment and selection that shows greater efficacy of recruitment processes that uses multiple criteria. The CAT score, over and above being a selection criterion, is also used to establish the minimum level of proficiency that is expected from the candidate in respective areas as indicated by section wise minimum scores in the CAT. Multiple criteria are used to arrive at a composite score for every candidate, which is used to select candidates. The remaining part of the document explains this process in detail.

IIMV adopts a three-phase selection process and accordingly these selection criteria are applied in three phases. The selection process, parameters and weights used are uniform for all categories of applicants. Sufficient candidates are shortlisted at each stage in each category to meet the reservation requirement for each group, as applicable at that time.

Phase-1

In the first phase process, all eligible candidates who have appeared for CAT 2018 and have applied for IIM Visakhapatnam will be considered. Candidates who qualify at this stage will be asked to reconfirm their interest for admission to PGP 2019-21 of IIMV.

1. The first shortlist of candidates is based on candidates securing minimum section-wise and aggregate percentile scores in the CAT. Candidates obtaining a positive (greater than zero) raw score in all sections of CAT-2018 will only be considered. The percentile cut-off scores that used for CAT 2018 are shown in Table 1. All the subsequent processing, standardization and selection is limited to candidates belonging to this first shortlist alone. This means that the CAT score alone (for candidates who have applied for IIM Visakhapatnam) is used as the basis for arriving at the first shortlist.

Table 1: First Shortlist - For the batch of 2018-20 based on CAT 2017

Minimum Percentile Requirements for the first shortlist (CAT-2017)*				
Category	SEC 1 (VARC)	SEC 2 (DILR)	SEC 3 (QA)	Aggregate
General Merit	85	80	80	90
NC-OBC	75	70	70	80
SC	60	60	60	75
ST	50	50	50	55
PwD	50	50	50	50

* These cut-offs are not for admission offers whose scores could be much higher.

- All candidates in the first shortlist (that is, those who have applied to IIM Visakhapatnam and also meet the minimum CAT 2018 percentile requirements) would be receiving an e-mail from IIM Visakhapatnam around third week of April 2019, with a link to a web page where they MUST reconfirm, by a stipulated date, their interest to pursue their candidature further, for admission to PGP 2019-21 at IIM Visakhapatnam.

Phase-2

- Only those candidates who meet the minimum CAT 2018 percentiles requirements, and have reconfirmed their interest, by the stipulated date, for admission to PGP 2019-21 of IIM Visakhapatnam (hereinafter referred as Qualified Confirmed Candidates) will be considered in Phase 2 of the admission process.
- For all Qualified Confirmed Candidates, the candidates' percentage scores in the 10th and 12th board exams are initially adjusted by dividing each such score by the 90th percentile score obtained in that board. The database of 10th and 12th scores of all CAT applicants of the past two years is used for identifying the 90th percentile score for each 10th and 12th board for this purpose.
- For all Qualified Confirmed Candidates, final scores obtained by the candidates are used for the bachelor's degree and professional degrees (if any). Incomplete or intermediate scores are considered only if the candidates final score is pending. Thus, for final year bachelor's degree candidates (at the time of CAT registration), their incomplete graduation score would be taken in lieu of final graduation score. Graduation scores are adjusted within their respective categories. This gives the adjusted score for the bachelor's degree for all Qualified Confirmed Candidates.
- For all Qualified Confirmed Candidates, candidates with Chartered Accountancy, Cost Accounting, and Company Secretary certifications are eligible for weight under professional course. No other professional course is eligible for weight under professional course. The professional course score is also standardized for all Qualified Confirmed Candidates.
- For all Qualified Confirmed Candidates, the score/weight for work experience is calculated as:
Score for Work Experience = $8x/36$ (if $0 < x < 36$)
= 8 (if $x \geq 36$)
Where x is the months of work experience up to July 2018, as captured in CAT application form (and substantiated in the application to IIMV). This implies that the score will peak at 36 months' work experience and will remain at that level for candidates with work experience exceeding 36

months. The work experience score (maximum 8 in the pre-PI stage) will be multiplied by the quality of work experience score on a five-point scale (0.25 - 0.5 - 1 - 1.5 - 2) as given by interviewers in the PI process in Phase 3, to then arrive at a weighted work experience score.

8. For all Qualified Confirmed Candidates, the maximum of the work experience score and the professional course score is considered for selection under a common parameter of work experience since both provide professional work experience relevant to a management programme.
9. For all Qualified Confirmed Candidates, other than work experience or professional course, the weights for the remaining five components are fixed as:

CAT=40, 10th board=20, 12th board=10, Bachelors=20, Gender Diversity=2, Work Experience=8.

The 40 points for CAT are derived from the performance in each of the three sections as follows: Quantitative Aptitude (QA) - 10 points, Data Interpretation & Logical Reasoning (DILR) - 16 points, and Verbal & Reading Comprehension (VRC) - 14 points.

10. For all Qualified Confirmed Candidates, the weighted aggregate of the six components namely (a) work experience or professional course, (b) CAT, (c) 10th board, (d) 12th board, (e) bachelors, (f) gender diversity as stated above, is used to prepare a pre-PI rank list based on which a second shortlist of candidates is prepared, for an assessment through Personal Interview and Written Ability Test. Sufficient candidates will be shortlisted (hereinafter referred as Phase-2 Shortlisted Candidates) to enable selection based on the additional evaluation components: Personal Interview & Written Ability Test.
11. For all Qualified Confirmed Candidates, normalization or standardization in any component stated above is carried out as per the following formula. All standardization is done with reference to the qualifying first shortlist. Standardized score (truncated between 0 and weight (wt)) is computed from the raw score (val) as:

$$\text{Max } [0, \min \{wt, wt/2 + ((val-\text{mean})/sd) * wt/6\}]$$

Phase-3

12. All Phase-2 Shortlisted Candidates will be invited to submit a detailed application, including a statement of purpose, details of semester wise / year wise marks in Bachelor's degree etc., copies of all academic transcripts & certificates, copies of work experience certificates (if applicable), certificate of disability (if applicable), scheduled caste / scheduled tribe / other backward class – non-creamy layer certificate (if applicable).
13. Only those Phase-2 Shortlisted Candidates, who have submitted the detailed application (including all the required documents) by the due date, will be considered for the Personal Interview stage in Phase-3 as described in points 14 and 15 below.
14. ***Candidates should note that, those who are shortlisted and interviewed by any one or more of the IIMs at Bangalore, Calcutta, Indore, Kozhikode, Lucknow (only for their PGP/PGPM programs), will not be required to appear for the personal interview of IIMV.*** For these candidates, their Personal Interview (PI) / Written Ability Test (WAT) scores from the above IIMs will be used to derive their PI/WAT scores for IIMV as follows:
 - a. If a candidate was shortlisted for PI/WAT by IIM Bangalore, his/her PI/WAT score of IIM Bangalore will be used as the PI/WAT score by IIMV
 - b. For all other candidates, the average of their PI/WAT scores (from IIMs Calcutta, Indore, Kozhikode, Lucknow) will be used as the PI/WAT score by IIMV
15. ***Candidates who are not shortlisted and interviewed by any of the IIMs at Bangalore, Calcutta, Indore, Kozhikode, Lucknow (only for their PGP/PGPM programs) will be required to appear for a Personal Interview (PI) / Written Ability Test (WAT) to be conducted by IIMV.***

16. The scores in all past academics will also be updated, if required, on the basis of actual mark sheets / grade cards submitted. Unless otherwise mentioned, percentages would be calculated by considering all subjects that the candidate has appeared for examination.
17. The WAT score (weight=10), and the Personal Interview score (weight=30), after standardization across interview panels and sessions, will be added to the following scores to arrive at the final aggregate score:

CAT (weight=25), 10th board (weight=10), 12th board (weight=5),
Bachelors (weight=10), Weighted Work Experience (weight=10)
18. The final offers of admission to candidates will be made strictly on the basis of ranks in each category on the final aggregate score as mentioned in Point No. 17.

Since IIMV follows a comprehensive multi-criteria process, it is able to identify many candidates who have an excellent academic record and work experience but who, while doing well enough in the CAT to be in the first shortlist, may have narrowly missed the high score that would have been required if CAT alone was the only basis for admission. Such candidates effectively replace candidates who have only a high CAT score but score poorly in terms of their past academic record and work experience. IIMV emphasizes consistent and high performance in past academics.

The admission criteria for PGP 2019-21 may be changed before the declaration of results.

The information in this document is applicable only for the admissions cycle PGP - 2019 of IIM Visakhapatnam and therefore, no inference can be made from this document about the admissions process that will be used for future admission cycles at IIMV. IIMV reserves the right to change, modify or adopt any new admissions process that it deems necessary, at any point.

Any dispute concerning Admissions for the PGP Batch 2019-21 would be subject to jurisdiction of the competent courts within the territorial jurisdiction of city of Visakhapatnam only.
