

Students' innovation to the fore at Jnana Bheri

TIMES NEWS NETWORK

Visakhapatnam: The state government's Jnana Bheri programme has helped unearth innovation of students from various colleges/institutions from across Visakhapatnam district. Innovations of students from IIM-Visakhapatnam, Indian Institute of Petroleum and Energy, Gitam University, Andhra University, Andhra Medical College and others were on display in 30 stalls on Thursday.

IIM-Vizag director Prof M Chandrasekhar explained about their stall. "Purnima Sinha, who is currently incubating her business idea at IIM-V, has developed Whatstock app, which provides an idea about which stock one should invest in

based on his/her portfolio. MG Krishna Veni, another incubatee, is developing several products out of banana stem. Radhika K is working with the disadvantaged sections to help them out with her business idea," said Prof Chandrasekhar.

IPE students Yesaswi S and Sourjya Naskar explained about their electronic speed controller project which can be used for electric-powered automobiles. Gitam student Vinay Bharadwaj said he is developing an unmanned all-terrain vehicle integrated with artificial intelligence. AU zoology students TVS Aditya and K Sriram Kumar showcased their idea of 'creating livelihood for fishermen during fishing holiday' and 'organic farming', respectively.
