It is a fitting recognition of the high talent of the students. The record-breaking performance does not come as a surprise as the students have been regularly winning in style, several tough competitions held pan-India organized by reputed business schools. Despite the challenges due to the ongoing COVID situation, IIMV increased the breadth of recruiters as well as depth of roles for its summer internship program. This was possible as we give importance to matching a student's abilities and her interest to recruiters' requirements. It's not easy but certainly it's a win-win situation for our students as well as recruiters.
