## 2. Orders of the First Appellate Authority to the First appeals during 2022-23

First Appeal No: IIMVP/A/E/22/00001 dated 11-03-2022

Ref: RTI application No. IIMVP/R/E/22/00004 dated 16-02-2022

**Issue:**

I find that the appellant has sought the information on proactive disclosure package and third party audit with reference to DoPT OM's, whereas the PIO provided different information.

**Discussion**

It is observed that the PIO has erroneously provided information not pertaining to the queries mentioned in the RTI application dated 16-02-2022.

**Order:**

The PIO is advised to provide proper information as per the RTI application.

The information pertaining to queries mentioned in the RTI application dated 16-02-2022 is attached herewith in Annexure-1.

Annexure-1

For queries in the RTI application the applicant is advised to visit Institute's website:

<https://www.iimv.ac.in/qlinks/rti>.

The data in the disclosure document will be updated as on 31-03-2022 and third party audit report will be uploaded soon.

First Appeal No. IIMVP/A/E/22/00002 dated 22-05-2022

Ref: RTI application No.: IIMVP/R/E/22/00016 dated 21-04-2022

**Issue:**

I find that the appellant has sought the details of candidates for admission to PGP 2022-24 session. He mentioned that he has applied for the admission but was not shortlisted. Vide Ref 2 above CPIO has provided the information as per the provisions of the RTI Act. The First Appeal dated 22-05-2022 is received with ground for appeal as 'provided incomplete, misleading or false information' mentioned prayer of relief as 'I am not satisfied with the reply received from CPIO. I am preferring the appeal on following grounds:-.'

**Discussion:**

**Q1.** In the original RTI application, the appellant sought for the "complete list of candidates applied for PGP with their composite score/ merit" which was denied by the CPIO under section 8(1)(j) of the RTI Act. The appellant has submitted that information sought by him is public information and available in the soft copy.

I find that just because information is kept in soft copy does not entitle a person to right to have the information which can be provided only after examining it in terms of the exemption sections of the RTI Act. Further, I find that the information sought by the applicant is not public information as claimed by the appellant. Even the Supreme Court judgment referred by him is contrary to what has been alleged. The views of the Hon'ble Supreme Court in CBSE Vs Aditya Bandopadhyaya (2011) 8 SCC 497 are reproduced below:-

"..... the examining body, if it is in a fiduciary relationship with an examinee, will be liable to make a full disclosure of the evaluated answer-books to the examinee and at the same time, owe a duty to the examinee not to disclose the answer-books to anyone else. If A entrusts a document or an article to B to be processed, on

completion of processing, B is not expected to give the document or article to anyone else but is

bound to give the same to A who entrusted the document or article to B for processing. Therefore, if a relationship of fiduciary and beneficiary is assumed between the examining body and the examinee with reference to the answer-book, section 8(1)(e) would operate as an exemption to prevent access to any third party and will not operate as a bar for the very person who wrote the answer-book, seeking inspection or disclosure of it....”

Hence, it is apparent the applicant is not entitled to the results of the other candidates as it is the personal information of the candidates and such information held by the IIMV in fiduciary capacity cannot be provided. I hold that the information is exempt from disclosure under sections 8(1)(e) and 8(1)(j) of the RTI Act.

**Q2.** The appellant has asked for the “break down of his composite score” in the appeal. I find that in the original RTI application, the appellant has sought for only his composite score and not the break down. The information sought for in the RTI Application has been provided. The information now being demanded in the first appeal is a new information which was not the part of the original application and hence, cannot be allowed at the appellate level.

However, in the spirit of the Act, the information on break-up of the composite score is provided below. Please note that the scores provided for SSC, HSC and Graduation are normalized scores

Component	Composite Score
SSC	6.7823
HSC	7.2497
Graduation	6.1928
Diversity	0
Work Experience	0
CAT	47.6374
<b>Total</b>	<b>67.8622</b>

**Q3.** In the original RTI application, information about the basis of percentile calculation for class 10<sup>th</sup> and 12<sup>th</sup> was sought. The CPIO provided the link of the website where the information is available.

The appellant has now alleged in appeal that the information given on website is vague without giving any justification. I find that the appellant has failed to specify as to how he finds it ‘vague and without justification’. He has raised a further new query “Why 90 percentile is taken and past 02 years data not given?”

The information as available has been provided and it appears that the appellant has some grievance as to why a certain percentile is taken. Such a query is beyond the scope of information as defined under Sec 2(f) of the RTI Act which is reproduced below:

“information” means any material in any form, including records, documents, memos, e-mails, opinions, advices, press releases, circulars, orders, logbooks, contracts, report, papers, samples, models, data material held in any electronic form and

information relating to any private body which can be accessed by a public authority under any other law for the time being in force.”

I find that in the case of Mr. Manoj Bansal v. State Bank of India in Second Appeal No. CIC/SBIND/A/2020/669532, Date: 08-03-2022, the CIC has held as under:

Only the documents/ information available in material form as per the records available with the public authority can be furnished under the RTI Act, 2005. The CPIO is not supposed to create information; or to interpret information; or to compile information as per the desire of the appellant under the ambit of the RTI Act. As per Section 2(f) of the RTI Act, the reasons/opinions/advice can only be provided to the applicants if it is available on record of the public authority. The CPIO cannot create information in the manner as sought by the appellant. The CPIO is only a communicator of information based on the records held in the office and hence, he cannot be expected to do research work to deduce anything from the material therein and then supply it to him.

The judgment dated 03.04.2008 in the case of **Dr. Celsa Pinto vs. Goa State Information Commissioner 2008 (110) Bom L R 1238**,

“The definition cannot include within its fold answers to the question why which would be the same thing as asking the reason for a justification for a particular thing. The Public Information Authorities cannot expect to communicate to the citizen the reason why a certain thing was done or not done in the sense of a justification because the citizen makes a requisition about information. Justifications are matter within the domain of adjudicating authorities and cannot properly be classified as information...”

Hence, I hold that the information sought for by the appellant now is beyond the scope of the RTI Act and hence, I uphold the order of the CPIO.

**Q4.** The appellant has sought for the reasons for not displaying full result or composite score of all candidates on the official website.

I find that what is being sought is not information as described u/s 2(f) of the RTI Act, 2005. The CPIO can only provide what exists in the records, he is not supposed to create reasons for the purpose of providing it to the appellant. Since no reasons regarding the query of the appellant exist in record, the same cannot be provided.

In this context, I would like to refer to the observations of the **Hon’ble Supreme Court** in 2011 (8) SCC 497 (CBSE and Anr. Vs. Aditya Bandopadhyay and Ors), referred to by the appellant elsewhere, wherein it was held as under:

“A Public Authority is also not required to furnish information which require drawing of inferences and/or making assumptions. It is also not required to provide ‘advice’ or ‘opinion’ to an applicant, nor required to obtain and furnish any ‘opinion’ or ‘advice’ to an applicant. The reference to ‘opinion’ or ‘advice’ in the definition of ‘information’ in section 2(f) of the Act, only refers to such material available in the records of the public authority. Many public authorities have, as a public relation exercise, provide advice, guidance and opinion to the citizens. But that is purely voluntary and should not be confused with any obligation under the RTI Act.”

**Q5.** CPIO has acted as post office and disposed of RTI application without application of mind which is against mandate of statute.

I find that the order of the CPIO stands legal scrutiny and has been backed by the relevant exemption sections of the RTI Act, 2005. The allegation of the appellant is without any basis and is liable to be rejected.

**Q6.** Compensation of Rs. 10000/ be awarded under Sec. 19(8)(b) of RTI Act for harassment and loss of precious time in making appeal.

The CPIO has provided the information as per the provisions of the Act. Hence, the prayer cannot be considered. Further, in view of my observations elsewhere, I find that the order of the CPIO is in the spirit of the RTI Act, 2005. Further, the **Hon'ble Supreme Court** in 2011 (8) SCC 497 (CBSE and Anr. Vs. Aditya Bandopadhyay and Ors), has held that:-

Indiscriminate and impractical demands or directions under RTI Act for disclosure of all and sundry information (unrelated to transparency and accountability in the functioning of public authorities and eradication of corruption) would be counter-productive as it will adversely affect the efficiency of the administration and result in the executive getting bogged down with the non-productive work of collecting and furnishing information. The Act should not be allowed to be misused or abused, to become a tool to obstruct the national development and integration, or to destroy the peace, tranquility and harmony among its citizens. Nor should it be converted into a tool of oppression or intimidation of honest officials striving to do their duty. The nation does not want a scenario where 75% of the staff of public authorities spends 75% of their time in collecting and furnishing information to applicants instead of discharging their regular duties. The threat of penalties under the RTI Act and the pressure of the authorities under the RTI Act should not lead to employees of a public authorities prioritising 'information furnishing', at the cost of their normal and regular duties.

**Order:**

In view of the above, I uphold the order of the CPIO and dispose of the appeal in above terms.

First Appeal No. IIMVP/A/E/22/00003 dated 29-07-2022.

Ref: RTI application No.: IIMVP/R/E/22/00027 dated 26-06-2022.
